FOR IMMEDIATE RELEASE:

SLIM CD, Inc Enhances Recurring Billing and Reporting

SLIM CD, Inc Announces Enhancements to Recurring Billing and Recurring Reporting Features Through the SLIM CD Website

Coral Springs, FL March 11, 2010 – SLIM CD, Inc a software developer and service provider announced it has updated its recurring billing and reporting functionality with enhanced features. All current and new Enterprise Slim CD customers can take advantage of this enhanced functionality and new reporting features at no additional cost.

“The new recurring features are designed to bring management and business information to the merchant, so that, forecasting and decision making can be made effectively,” said Sami Slim, President and CEO of SLIM CD, Inc

The SLIM CD website’s enhanced recurring features include: recurring scheduling, the ability to investigate outstanding debts and overdue payments, deactivate or re-activate recurring customers, delay a payment to a predetermined start date, and more. The enhanced reports include recurring schedule displays that provide recurring payment forecasting information and other research tools that allow identification of past recurring transactions, current recurring customers and recurring customer activity. The focus of these new tools is on rapid identification of billing trends that effect cash flow, including upcoming revenue, soon-to-expire cards, deactivated customers and overdue balances.

Frank Haggar, Director of Product Development for SLIM CD, Inc said, “Web based recurring can now be used by any internet browser, i-Phone, or even the i-Pad thus expanding our Enterprise Edition software functionality from the desktop to the Internet.” He continued, “These economic times have caused an increase in the awareness of billing cycle patterns and our initiative provides assistance to merchants that wish to identify their cash flow and outstanding balance information as quickly as possible.”

The SLIM CD includes a desktop application, data on demand, built-in gateway services, fraud detection services, a choice of shopping carts and backup dial-in connection capability. The SLIM CD runs on any IBM-Compatible Personal Computer with Internet connectivity or that has a modem. Low-cost card swipes, PIN pads, receipt printers and signature capture devices are supported.
