SLIM CD Announces TSYS Certification of FSA and IAS Support

Slim CD Has Certified it's Gateway with TSYS to Accept Additional Information Needed For Pharmacy Acceptance of FSA Cards

Coral Springs, FL Nov 25, 2008 – SLIM CD, INC, a leading POS software developer and service provider, announces that TSYS Acquiring Solutions has certified the SLIM CD Gateway for acceptance of IAS indicators and additional fields required for full support of Flexible Spending Accounts. This announcement is of particular interest to software developers that integrate pharmacy software.

“This new certification allows pharmacy companies to send the additional data required for each category of qualified purchase”, said Sami Slim, President and CEO of SLIM CD, Inc. “These merchants benefit from the ability to specify which portion of the transaction is to be charged as Pharmacy, Dental, Vision, or Clinical. Pharmacies that have validated 90% of their products are IAS compliant can also send that indicator with the transaction.”

Frank Haggar, Director of Product Development, added: “SLIM CD is committed to providing it's developers with the functionality they need to be competitive. Our integrators requested this certification's completion before the Dec 31, 2008 deadline, and SLIM CD was quick to respond. ”

Documentation contained in the SLIM CD Developer's Toolkits has been updated and is now available from SLIM CD. SLIM CD will continue working with other processors for similar IAS/FSA/HRA certifications.

The SLIM CD gateway supports sending credit card transactions to most major US credit card processors, including TSYS, Chase/Paymentech, First Data, Elavon, Global Payments, Fifth Third, RBS Lynk, and Heartland Payment Systems.
